Enter your current (old) password. Then, enter in your new password in both boxes (New and Confirm). This should be a strong password with no similarities to your previous password.

Log into your computer again using your new password. Congratulations! Your password is now updated. Additionally, you may need to update any Single-Sign On saved login credentials that use your Active Directory username and password.

It is also good practice to change your password every 90 days to increase your security.

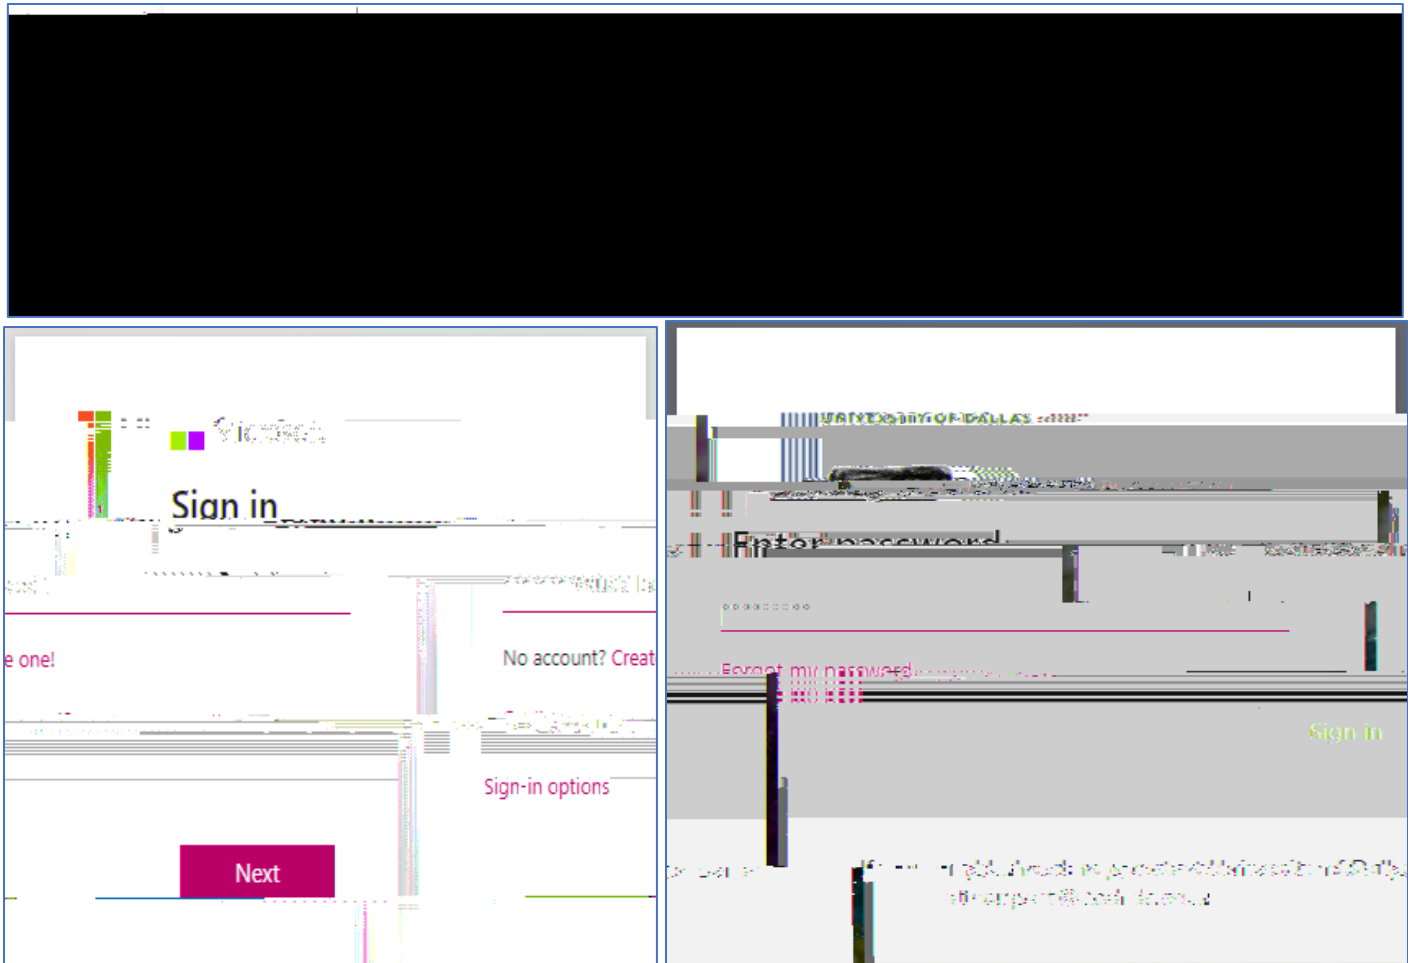

Password Reset Off Campus

There are two steps involved for resetting your Network/Single Sign On (SSO) password.

If you have already registered for MFA, skip directly to Step 2: 'Reset Password' page 10.

Step 1: Setup Multi-factor Authentication
